

## BUILD YOUR LIFE LIKE A STRONG HOUSE

*(On a hillside in Galilee)* — Jesus had so many people following him to listen to his stories he had to find a big gathering place. He went up on a hillside and the people sat down all around him, listening. He taught them how to live. He told them they should love their enemies and be forgiving. He taught them the Lord's Prayer. He warned them not to act as though they were better than other people.

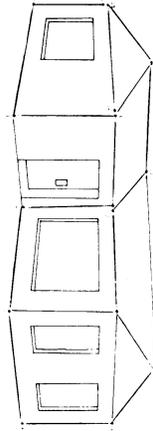

When he finished all his teaching Jesus said to the big crowd, "If you do what I've taught you then your life will be like a strong house a man built on a rock foundation. When the storms and floods came it stood up and did not fall apart. But if you don't do what I taught you, your life will be like a house a man built on a sand foundation. When the storms and floods came what looked like a strong house turned out to be weak. The bottom fell right out of it and the walls caved right in. So build on a good, strong foundation."

*Matthew 7:21-29*
